Heartworm, Flea and Tick Control

ProHeart 6-month heartworm injection

- ProHeart is a shot that prevents heartworms and lasts for six months.
- It is safe, effective and very convenient. It is very popular.

Trifexis is a heartworm and flea pill given monthly, and is very effective and popular

- Trifexis prevents heartworm disease and kills fleas with one once-a-month pill
- This is one of our most popular medications

Bravecto is a 3 month flea and tick chewable for dogs

- Bravecto is a soft chew for dogs that kills fleas and ticks for three full months. This is the longest acting flea and tick medication.

Heartgard and Iverheart are popular monthly heartworm preventatives

- They are a chewable biscuit and flavor tablet that are given once a month to dogs and cats.
- These preventatives also will kill the intestinal parasites of hookworms and roundworms.

Revolution is a topical multipurpose preventative that can be used on dogs and cats.

- This is a topical liquid applied between the shoulder blades of the pet once a month for heartworms, ear mites, fleas, some ticks and sarcoptic mange. This is safe, effective and very popular.

Advantage Multi for Dogs and Cats prevents heartworm and kills fleas and ear mites

- It is a topical liquid applied once monthly.

Advantage is a topical flea control applied once a month between the shoulder blades.

- Kills 98-100% of fleas on the pet within 12 hours, and is well tolerated in cats and dogs
- Safe to use on puppies and kittens as early as 8 weeks of age

Frontline is a topical flea and tick medication that is very safe and very effective.

- Coverage for fleas has a longer duration than Advantage, Revolution or Advantix, and it kills ticks.

Preventic Collars will kill and detach ticks for up to 3 months and is very affordable.

- Medicated collar will paralyze the tick’s mouth, causing the tick to fall off and die.
- For use on dogs and puppies at least 12 weeks of age
- Can be used with the other topical medications and yard treatments.

NexGuard chewables kill fleas and ticks on your dog for one month

- NexGuard chewables are a safe and cost-effective way to treat your dog for fleas and ticks for one month.
